

Looking to Collect More Money? Of course... who isn't these days!

Transworld Systems Collections (Phase II Verbal Demands) is committed to improving results for you. As we continue to navigate through this difficult economic environment, we are constantly looking at new and innovative methods to drive results and increase your recoveries.

Recently, many of our clients have provided Transworld Systems Collections with the ability to settle accounts on their behalf at a specified percentage of the original balance owed. By demonstrating a willingness to accept slightly less, you provide Transworld leverage in negotiating and resolving disputes quickly and efficiently in order to get your money faster. It also enables Transworld Systems Collections to participate in additional letter campaigns designed to entice payment where we may otherwise have been unsuccessful in contacting your account by phone.

Transworld's primary goal is to collect the entire balance on every account. However, there are some situations in which a settlement is the best option. The end results will be more money collected for you.

If you would like to authorize Transworld Systems to settle on your behalf, please get started here. (link 'please get started here' to http://www.surveymonkey.com/s.aspx?sm=N2rbQrQNa1VjQIbX4ASEtw_3d_3d)
